EXCELLENCE AWARDS

What is Excellence? – *Rob Denise*

Excellence in... means different things to different teachers. The awards below are chosen by each teacher. For many teachers, *excellence in...* does not always mean the highest grades in the class. Instead it means students who have demonstrated a love of learning in the subject area, a willingness to ask engaging questions and a consistent effort to participate in the class.

What is The Super Eight Award? – *Alisa Hicks*

This special award was created by the 8th grade team to honor and recognize students for all around excellence in academics, attitude and effort. Students who have earned the Super Eight Award will not receive individual certificates from each subject area. Instead they will receive special recognition after all of the Excellence Award winners have been recognized.

The exception to this rule will be the Arts. The Arts have a long tradition of recognizing students with special awards from their content area. Students might receive recognition in the Arts and also receive a Super 8 Award.

The Excellence Awards

Students will come forward when their name is called and stand on the carpet to receive the awards.
